For the purpose of making a comparison as to the taxes paid for road and bridge purposes I will use, for example, the taxes paid for road and bridge purposes in Brown County, Kansas, which is approximately the same as paid in counties adjoining Missouri, in the states of Nebraska and lowa. A good 80-acre farm in Brown county, Kansas, is assessed at \$6000.00, upon which the county levies a tax of 45 cents on the \$100 valuation for road and bridge purposes, making sorround and bridge purposes, making a total tax of \$27.90. In Holt county, a good 80-acre farm is assessed at \$2400.00. The tax levy being 35 cents on the \$100, makes our total road and bridge tax \$8.40, thereby making the difference of \$19.60 between the amount paid by Brown county and that of Holt county for road and bridge purposes. In case the voters at the appeal election authorize the County Court to levy an increased tax of 50 cents on the \$100, the amount derived therefrom, together with the present tax will make a tax of \$20.40 on a good 80-acre farm, which is still \$6.60 cents on the \$100, the amount paid by Brown county for the same surposes in each and every year. The proposed increase, if authorized, will run only for a period of three years.

I am sure that every reader of your paper knows that a great majority of our bridges and roads are not up to standard, and that it is absolutely necessary to have more funds under present conditions to construct and mainprove our roads and bridges, and for this reason only, the County Court has few words as possible, and in conclusion will say that I will be glad to good roads and bridges, and for this reason only, the County Court has few words as possible, and in conclusion will say that I will be glad to good roads and bridges, and for this reason only, the County Court has few words as possible, and in conclusion will say that I will be glad to good roads and bridges, and for this reason only, the County Court has few words as possible, and in conclusion will say that I will be glad to good roads and bridges, and for this reason only, the County Court has few words as possible, and in conclusion will say that I will be glad to good roads and bridges, and for this reason only, the County Court has few words as possible, and in conclusion will say that I will be glad to good roads and bridges, and for the motivation of the county of a tax of 45 cents on the \$100 valuation for road and bridge purposes, making a total tax of \$27.00. Editors Holt County Sentinel:

Dear Sir:—For the purpose of bringing to the attention of the tax-payers of Holt County, relative to the proposition of voting an increased tax for bridge and culvert purposes. I would be glad to have you publish the following in this week's issue of your paper.

In case the voters of the county authorize the proposed increase, the County Court has decided to expending the revenue derived from such increased taxation, in each of the Municipal Townships in accordance with and on the basis of the taxable valuation. The following table shows the present valuation of each Municipal Township, setting out the revenue each will derive on a levy of 50 cents on each \$100 valuation:

M. C. Brumbaugh's Death.

The death of this ideal husband, father, brother and Christian citizen, which occurred at his home in Maitland, on Friday last, May 7, 1920, brought deen grief throughout our county, for he was one of those men so happily made up as to win the friendship of all those who had the wood fortune to know him, and to have business, social or religious association with him; so gentle and kind in disposition; so devoted to home, and so loyal to his friends. He was pure sterling in all his life's re'ationships, and was ever ready to lend a helping hand to a friend. So sunny and companionable, that one ever felt lifted up by intimate contact with him.

He believed in his home town, and he was ever ready to do his part for its upbuilding, religiously, educationally, commercially and socially. He was of the highest type of the clanpure, elevating and refining of citizenship, for his ideals were of the very highest. ALBERTA GREEN-MURPHY,

Will Leave Us.

Will Leave Us.

Will Leave Us.

Will M. Hamsher and wife were here, Monday, visiting with C. D. Zook and wife, on the eve of their departure from Mound City, where they have lived so long and well. They will leave on the 21st, going first to Excelsior Springs for a few days' stay, contemplating to leave Kansas City on May 29th for their new home in Los Gatos, California, where they will be with their dear boy, Clarence, who is cashier of the First National Bank of Los Gatos. For nearly fifty years, Mr. Hamsher has been identified with the mercantile and banking interests of our-county, 46 of these years he has lived in Mound City, and 31 of which were given to banking, ever finding time to do his part toward the building up of that city, in the social, religious, commercial and educational fields. The loss of such citizens will not only be felt by our sister city, but by the county at large.

The Difference.

The Difference.

A good 80-acre farm in Brown county Kansas, is assessed at \$6000.00, upon which the county levies a tax of 45c on the \$100.00 valuation for road and bridge purposes, making a total tax of \$27.00. In Holt county, a good 80-acre farm is assessed at \$2400.00. The tax lavy is 35c on the \$100.00, and makes our total road and bridge tax \$2.40, thereby making the difference of \$19.60 between the current paid by Brown county and half sounty for read and bridge purposes.

Farm Census

Farm Census.

The Holt county farm census for 1920 will begin on June 1, and is conducted by the county assessor, who ask 24 short questions, when he calls to take the annual assessment.

Farmers and all agricultural folks are anxious to know what the state census questions will be this year. The Sentinel announces this list today, by courtesy of Assessor Meyer, who suggests that each farm owner or renter write answers for his owned or rented land to the 23 questions to see if his added total of acres will be the same as the answer he must make to question No. 24. Assessor Meyer also advises that each farmer keep the slip of paper with the correct figures to give to him when he calls to do the reular assessing. rgular assessing.

The following questions correspond exactly with the numbers of the columns on each township or county assessor's farm census blank:

W. H. Richards, who has ben president of the Bank of Forbes, since it came into existence November 7, 1906, last week teel: over the interests of Jas. A. Williams, who has been the bank's cashier since it was organized. Mr. Richards also buys Mr. Williams' handsome nome in Forbes.

The change has been necessitated by the continued failing health of Mr. Williams, which has became such of late that his physician advises him to go West, which he will do in the near future. He has been a great sufferer from asthma, and it is likely that he will go to Seattle, Washington.

Mr. Williams' many friends all over the county will regret his going, but they will hope that he may soon improve to such an extent that he will conclude to come back to Old Holt. We have no better men anywhere than "Jim" Williams. He is a veteran of the 1898 War, and served as our sheriff, 1903-1907, and he made us an ideal officer.

The Sentinel trusts that Mr. Williams lot may ever be cast in pastures green.

A Pleasant Reception.

As Mr. and Mrs. Albert Williams and their daughters are expecting to remove from New Point to Colorado Springs, Colo., in the near future, some of their friends thought it would be nice to express their good will and best wishes by giving them a farewell party. And so arrangements were made to hold the gathering at the palatial country home of Mr. and Mrs. Dan Dreher, one mile south of made to hold the gathering at the palatial country home of Mr. and Mrs. Dan Dreher, one mile south of New Point. The doors of this hospitable home were thrown wide open to the guests, who were given a most hearty greeting. If the house was large so were the number of people who filled all the rooms. If your scribe did not miss his count there were just 67 people, big and little, there to enjoy the social hours together.

The evening was spent in social conversation and music on the piano player, some of which was just a little quick and rhythmic—but no dancing, mark you—it was not a feet party, but one of the head and heart.

The little folks as well as the older ones entered fully into the spirit of the occasion and just had a jolly good time. The inner man was not overlooked, but was supplied with excellent ice cream and cake.

At a seasonable hour the company took their denarture for their respective homes with the feeling that it was good to have been there.

We are sorry to lose the Williams from our community, but we wish for them prosperity and better health in their new home, close up to the mountains, the big Rockies.

The time of the farewell reception was the night of Ma y6, 1920.
